FORTY-EIGHT HOURS.

The Limit of Time to be Allowed by Senator Gorman

FOR THE TARIFF CONFEREES TO AGREE

Or He Will Wipe Out the Entire Schedule and Stand on Free Sugar

—A Democratic Caucus to be Held To-Day.

Must Act in Forty-Eight Hours.

WASHINGTON, Aug. 6.—Senator Gorman talked with unusual freedom and emphasis about the tariff bill to-night. "More unsatisfactory than ever," was the way he described the situation in conference. "The house conferees," said he, "will do nothing. They will not come to an agreement. They will not even agree to report a disagreement. We are going to give them just forty-eight hours more to do one thing or the other. If they still hold out we will try to cut the Gordian knot."

"How, senator?"

"We will bring the bill back into the senate, wipe out the entire sugar schedule, and stand on free sugar. That will leave the treasury a little short. It will cut out \$20,000,000 of anticipated revenue, but it is the best thing we can do under the circumstances."

Senator Gorman further said that, of course, the wiping out of the sugar schedule meant no more bounty and the abandonment of the Louisiana senators to their fate. He spoke as if he was thoroughly disgusted with the Louisiana senators, to whose combination with the populists he attributed the failure to agree in conference when everything seemed so favorable a couple of days ago.

"We can carry free sugar and no bounty through the senate," said the senator, "in spite of the Louisiana senators, and we will see what the house will do with it."

This is precisely what the president does not want. His letter to Mr. Wilson urged free coal and free iron ore and a duty on sugar.

Call for a Democratic Caucus on the Tariff Bill.

WASHINGTON, Aug. 7.—Immediately after the house adjourned yesterday, Mr. Holman issued the following notice:

There will be a democratic caucus held on the floor of the house to-morrow, August 7, at 8 p.m.

(Signed.)

W. S. HOLMAN,
Chairman Caucus Committee.

The call for the caucus was circulated precisely one hour yesterday afternoon, and it received in that time the signatures of fifty-three democrats. The first who signed the call were Messrs. Springer, of Illinois; Byrum, of Indiana; Black, of Illinois; Hodges, of Mississippi; and Boutwell, of Louisiana. Other well-known signatures are those of Messrs. Bailey, of Texas; Patterson, of Tennessee; Money, of Mississippi; Sprague, of Connecticut; McGuire, of California; Lynch, of Wisconsin; Ebbets, of Tennessee; Washington, of Tennessee; Allen, of Mississippi; Lambert, of South Carolina; Henderson, of North Carolina; Shatt, of South Carolina; Martin, of Indiana; Gentry, of California; and DeForest, of Connecticut.

It is significant that none of the names of the conferees, the speakers, or the other two democratic members of the committee on rules, Messrs. Catchings and Outhwaite, appear on the call. Mr. Outhwaite said last evening that it would probably be a stormy caucus. It is expected that all the democrats in the city will be present, and that it will result in a contest between those of the democrats who desire a prompt settlement of the issues in question between the two houses and those who are willing to await the action of the house conferees, no matter how long the conference may be prolonged.

Mr. Springer was asked if a resolution would be offered in the caucus instructing the house conferees to make the best terms possible with the representatives of the senate without regard to what the nature of the compromise might be. He replied that he could not tell what action the caucus might take, but he for one (and there are many others who felt as he did) thought that some agreement should be reached and that the democrats ought to get together in caucus and talk over the better plan of reaching an agreement.

An effort will be made to have the house conferees attend the caucus and acquaint those present with what they have done and what they hope to accomplish. The gentlemen who have been instrumental in securing the caucus insist that they have no purpose of embarrassing the conferees, but the delay in reaching a conclusion on the bill must be shortened; while those who oppose the suggestion of a caucus insist that it is inspired by malice, and that it is practically a fire in the rear of the true friends of tariff reform.

The World's Record for Two-Year-Old Pacers Lowered.

BUFFALO, N. Y., Aug. 7.—A new world's record was made at the Buffalo Driving park yesterday afternoon in the 2-year-old pacing class. Directly and Carbonate, the best two-year-olds that ever trod the turf, ran the race, and when they finished a new world's record had been established. Directly won in 2:13. The best previous record was made by the filly Lena Hill, who last year won a heat at Dallas, Tex., in 2:13.

The track was in better condition than any day heretofore during the meet, and the spectators were prepared for fast racing and close finishes, and were not disappointed.

Money Required to Run Decatur a Year--The Proceedings.

Three Saloons Let Out, Leaving 52--New Men Will Take Charge--Nine Hours' Work for the City Force.

At the regular meeting of the city council last night considerable business was transacted.

The B. H. Cassell demand about filling up part of a lot was referred, as was also the suggestion of Dr. W. J. Chenoweth about the proper construction of a sewer for Riverside Place. W. H. Ennis, Silas and others asked that they may be allowed to make immediate payment for street paving around their property. The request was granted and the city clerk will make the desired computation. R. O. McGlassan desires to put up a pole in front of his place of business. Referred. The proposed sewer improvement on South Monroe street was knocked out for the present by the adoption of a repealing ordinance. Objection was made by J. N. Miller, J. M. Miller, J. M. James and others to the erection of a fence six feet high by Mrs. Geo. P. Bliss on North Water street. After some talk the matter was referred to the city attorney.

Justice and department reports were received and placed on file. The Marshal's report for July showed 74 arrests; fines assessed \$449.10; collected, \$397.65. Gallons of water pumped in July, 65,000,000; coal used 425 tons.

It was reported that it will cost \$1,500 to widen Pugh street, and an ordinance was adopted providing for the improvement.

Surveyor Loring reported the paving of College street as complete from Prairie to Macon and the city's share as \$373.32. Besides this P. H. Hunt had a claim for extra work on this same paving amounting to \$163.02. Referred to Public Improvement committee.

The city treasurer's report showed a balance on hand at last report of \$14,603.49; total receipts from all sources, including \$9,000 from the tax collection of last year, \$12,963.50; grand total, \$28,566.99. Against this were warrants paid aggregating \$9,107.14, leaving a balance in the city treasury of \$19,459.85.

The statement of the sinking fund was a little surprising in view of the fact that we have bonds due in 1896. The balance on hand in the sinking fund is only \$1,156.50. The balance in the street paving fund August 1 was \$3,425.12. The balance in the library fund is \$3,875.93.

THE TAX LEVY ORDINANCE PASSED.

The annual ordinance for the tax levy was passed. It provides for the collection of \$63,543. The purposes for which it is to be used are as follows:

Interest on bonds	\$ 3,330
For sinking fund	4,230
Public and local improvements	13,000
Improving streets and alleys	2,500
For sidewalks	2,000
Expenses of police department	5,000
Expenses for department	8,000
Expenses health department	300
Law department	200
Water works	11,500
Public library	1,500
Salaries city officers	4,000
Public lights and gas	2,500
Public parks and pleasure grounds	250
Continued fund	200
For rent	500
Total	\$63,543

The city clerk was directed to file a certified copy with the county clerk as the law directs.

It was ordered that Attorney Lee take proper legal steps for a sewer on Cantrell street from Broadway to Webster.

The water inspector was directed to collect \$40 from D. A. Maffitt for the hydrant which was broken by his team at the corner of Webster and Wood streets. It was stated that Mr. Maffitt was perfectly willing to pay, but wanted the council to make a precedent so that others would do likewise.

Fifty-two liquor licenses were renewed for three months. The applications of Blackburn, Robinson and Dugan for saloons on Franklin street, were rejected on the ground that the saloons were resorts for disreputable women.

RESOLUTIONS.

By Irwin and Stratton: That the superintendent of streets be instructed to repair the street paving on East William street, between Water and Park streets. Adopted.

By Bolen: That the street superintendent be instructed to clean the brush on Division street, between Broadway and Morgan.

By Drake: That permission be given Dr. J. L. Bevas to erect a sign in front of Columbia block. Adopted.

By Stratton, Knight and Johnson: That the city attorney be and is hereby instructed to begin, the necessary proceedings in the county court to levy an assessment for special assessment for a sewer on Cantrell street between Broadway and Webster street. Adopted.

By Johnson and Bischof: That the crossing at Front street be repaired. Referred.

A preamble and resolution by Alderman Bolen was read as follows:

A short time ago the city council passed a resolution that the men working for the city be required to work ten hours a day instead of nine. There was some talk of cutting their wages, and I voted for the resolution thinking it would save them from being cut, but since I find our men all working more hours than any city I know of, and believe they will do as much work in nine hours when they are satisfied as in ten hours when dissatisfied; therefore I beg to be resolved, That all employees of the city work only nine hours for a day's work and receive the same pay they now do. Adopted.

By Stratton and White: That the

city clerk be instructed to advertise for bids for the construction of the Cantrell street sewer. Adopted.

By Montgomery: That all saloon keepers be required to place their bonds in the hands of the city clerk in time that same may be presented to the city council at meeting prior to the meeting at which they intend asking for license. Adopted.

TRACTION ENGINE ACCIDENT

Particulars of the Double Fatality Near Illiopolis Monday.

Brief mention was made in these columns last evening of the traction engine accident at Sugar creek, near Illiopolis, Monday morning, by which two young men lost their lives. The outfit had passed over the bridge in safety last Thursday and no fears of danger were apprehended on the return trip. Charles Hudson and Will Dandelein were riding on the engine. The approaches to the bridge were made safely, but just as the whole machine passed over the first abutment the first section of the structure gave way with a crash. The front wheels of the engine caught on the edge of the second section, and when the concern landed partly in the water and partly on the ground twenty feet below, its natural position was reversed, the wheels being upward and the upper part down. The smoke stack was driven into the ground. The two young men were killed instantly. Each had fallen on different sides of the engine. The fly-wheel had broken off and had fallen off so that its rim lay across the back of Dandelein's neck, crushing the face into the soft dirt and mashing one side of his head. Hudson had fallen on the other side of the machine and the large drive-wheel was crushing his head into the dirt in the same manner as his companion. In addition to his head being crushed his legs were broken and his right shoulder dislocated.

Charles Hudson, whose age was 27, lived with his parents in Illiopolis. Will Dandelein, aged about 22, lived with his mother, Elizabeth Dandelein, near the same village. His mother is an invalid, and with the messenger that was sent to tell her of the accident a physician was sent for fear she would be prostrated by the fearful news and need attention.

John Dandelein, an elder brother and a partner in the threshing outfit, lives at Lake Fork in Mt. Pulaski township, Logan county. He fortunately was in the plank gang and escaped injury; is a married man. He was terribly shocked and prostrated by the affair.

THE COLORED ODD FELLOWS.

Fourth Annual Session in Progress at Champaign.

The annual session of District Grand Lodge, No. 9, of Illinois Colored Odd Fellows, is now in progress at the fair grounds at Champaign. District No. 9 includes all colored Odd Fellows in the state of Illinois. The largest number of colored people ever gathered together in Champaign will undoubtedly be present. Lodges at Cairo, Centralia, Chicago, Paris, Mattoon, Danville, Springfield, Decatur, Bloomington, Galesburg, and other points have signified their intention of being present, and these alone will make quite a crowd. The session began Monday afternoon by a meeting of the executive committee. The lodge proper met to-day, when the meetings will be held morning, afternoon, and evening until Thursday, when there will be a grand celebration of the fifty-first anniversary at the fair grounds. Addresses of welcome will be made by Mayor Harris, of Champaign and Mayor Webber of Urbana. The orators will be Richard Hillman, grand master of the world; the Hon. J. M. Townsend, ex-recorder of deeds of the United States; M. J. Forester, grand master of the United States and John C. Bunker, of Chicago. This will be followed by a competitive drill between Springfield and Chicago Patriarchs and a banquet Thursday night.

Held to Answer.

Jim Wilson, the burglar who was captured Sunday evening by Dr. Rumstead, was before Justice Odor Monday afternoon. He waived examination on the burglary charge and was sent to jail in default of \$800 bail. He was fined \$30 and costs for carrying a concealed weapon. Wilson will get to Joliet as soon as the machinery of the law can get him there.

DON'T LIKE IT.

A. F. Smith Comes Back at the "Republican" With Great Vigor.

EDITOR OF REPUBLICAN: In reply to your very unjust and unfair editorial of yesterday on Sunday Excursions, apparently inspired by an intensely bitter partisan spirit, permit me to say that the local columns, where are usually found the reports of arrests for disorder and drunkenness, demonstrate that the charge, "the city was filled with thugs, bloated and thieves," is untrue, and that if there was intoxicating liquor sold on Sunday it either did not interfere with the officers of the law did not interfere with their duty. As to the shooting affair, which disgraced our city, it did not emanate even in the most remote manner from the camp-meeting. On the contrary the man who did the shooting was charged with selling liquor illegally in Cisco, Platt county, and a warrant had been in the hands of the sheriff for some time. He would have been arrested several days ago had the sheriff done his duty. There would not have been any trouble if it seems, if the sheriff had taken him in charge when first seen here. Under any circumstances it should be borne in mind that the disgrace and the shame in that case arises through the sale of liquor in another town. Again, if as stated in your columns "the dram shop keeper was pouring whiskey and beer into the stomachs of the remainder of the people" who did not attend the camp-meeting, it simply demonstrates that "the remainder," through partisan influence, perhaps, were in the wrong place they should have been at the meeting, where was intoxicating liquor was permitted, and where not even tobacco was sold on the ground. Again, if liquor was sold, it was sold by Democrats and Republicans, drank by Democrats and Republicans in violation of the law, the enforcement of which is in the hands of officers under the direct control of Democrats and Republicans, and in dram-shops licensed by Democratic and Republican aldermen. As a matter of fact, however, a careful examination of your columns indicate that with the thousands of people here there was not an arrest for either drunkenness or disorderly conduct. It is a fact that the great audience was quiet and attentive at Oakland park as in any church of this or any other city. It seems to me that there is no more harm in a thousand or five thousand people coming quietly to the city and riding to Oakland park to hear a sermon than there is for a hundred to ride on the street cars to any church of the city and attend services. Nor do I believe it is any more inappropriate to arrange the government and the administration, and for that matter, the political parties for their attitude toward the liquor traffic than it was for Henry Ward Beecher and others to arraign the government from the pulpit for its attitude on the slavery question. As to the gate receipts the management simply took a cash collection at the gate from those who had not already secured tickets, to defray expenses, just as the Municipal Association took an admission fee of ten cents for the lecture of Francis Murphy at the opera house last winter on a Sunday night.

Prof. Roche Coming

Prof. Roche, the wonderful hypnotist, begins a nine nights' engagement at the Powers Grand Opera house, August 9th. Prices, 10, 20 and 30 cents. The Bloomington Leader comments as follows:

The stone breaking feat was an exhibition in itself. The hypnotic power was exerted in that case upon the professor's assistant. His success was perfect. The young man was rendered rigid and laid across the backs of two chairs leaving a space of three or four feet between the chairs, the large flat piece of stone was lifted and laid upon him by a half a dozen of the gentlemen on the stage, and Mr. Howard Humphreys mounted a table with a sledge hammer succeeded in breaking the stone after several of the hardest blows he was capable of striking. This with a few other tests closed the work of the evening. To night Prof. Roche promises to go into the mental field and show his control over the minds of his subjects. The study of hypnotism is intensely interesting and the probabilities are that a large number of people will follow his work throughout the week.

Are Making Preparations

Great preparations are being made to accommodate a large number of people, who, it is expected, will be present at Ivesdale Sunday, Aug. 19, the occasion being the dedication of the elegant new Catholic church, which takes place on that date. Excursions will be run from Champaign, Peoria and Decatur, and it is expected 2,000 people, besides the residents of Ivesdale and vicinity will take part. The Rev. J. L. Spaulding, bishop of Peoria, will conduct the dedicatory exercises. The church will be known as St. Joseph, and will be one of the finest in Central Illinois.

Last Opportunity for Cheap Colorado Rates.

August 10 and 11 the Wabash railway will sell tickets, Decatur to Pueblo, Colorado Springs and Denver, for \$21.40 round trip. Full particulars, tickets and illustrated and descriptive resort books at city office and Union depot.

BUILDING AND LOAN.

Condition of the Illinois National Building and Loan Association Continues to Provoke Much Comment.

Bloomington, Ill., Aug. 6.—The condition of the affairs of the Illinois National Building and Loan Association of Bloomington continues to be the gossip of the city. Owen Scott, the secretary, and Attorney and Director, A. J. Barr, are now in the city, and it is understood, are in quest of Attorney General Moloney, who, they assert, agrees with them that they had a legal right to collect the quarterly dues for expense fund, to which proceeding the Auditor objects, demanding that \$22,000 of such expense fund be charged up as liabilities. Auditor Gore has taken exception to the statement made by A. J. Barr, attorney for the Illinois National, and makes no further as follows: "Concerning the statement of Mr. Barr that the Attorney General coincides with the management of the association as to the liability of an expense fund, it is not our understanding that the Attorney General coincides with the management in their opinion in this matter. We understand the Attorney General holds that this association or any other has a right to accumulate an expense fund, but that the expenses in the first instance must be paid from the earnings."

A HANDSOME FRONT.

Improvements at Walter Hutchins' Popular Shoe Store.

Walter Hutchins' new shoe store at 117 North Water street is now finished and it is one of the handsomest rooms in the city. The store is complete, artistic and stylish in every way. It was remodelled throughout. The display window is the best in the city. The most of the wood work is now hard yellow pine. The front, however, is finished in oak. The room is brilliantly lighted by the Municipal electric company. The front window is equipped with two solid nickel "trees" for the display of shoes. Such a handsome store must result in more business and a bigger force will be put in.

A Burglar at Large.

A few weeks ago in the absence of part of the family, the home of C. D. Grist, the barber, at 408 South Broadway, was entered by a negro who used a skeleton key to unlock the front door. A little son of Mr. Grist, with a shiny club in his hand ran the burglar out of the house. He forgot the key and it was shown to the police who were also given a fair description of the rascal. Last night another attempt was made to rob Mr. Grist. It failed because the skeleton key used got fastened in the lock of the side door through which the fellow attempted to enter. This morning Mr. Grist found the key in the door. It is a perfect match for the key used by the negro who was chased away by the boy, and it is believed the same party made the visit last night. Mr. Grist has a self-acting 45 calibre revolver and a big club lying at the side of his bed every night. If any thief gets inside he will be given a hot reception. Grist is a dead shot from the blue grass regions of Kentucky.

That Jump in Corn.

Corn is now worth 45 cents per bushel in this city. This is the highest price that has been paid for corn for several years, and the first time that it has ever been the same as wheat in the collection of local grain dealers. A prominent grain buyer said yesterday that the price was not permanent and they would hardly like to pay it, as it would be running a great risk. The price went up because of the supposed failure of the corn crop, but if a good rain was to prevail generally the price would drop a great deal faster than it went up, and a many dealers be caught with elevators filled with high priced corn on which they would have to wait a long time before they could sell at prices anything like they paid. When prices are so fluctuating dealers have to buy on a large margin in order to run no risks.

Went Camping.

Yesterday a party composed of Misses Minnie Welch, Lulu, Kate and Grace Adams, Hattie Miller, Grace Hamsher of Decatur, and Messrs. George Butterworth, Edward Welch, Daniel Thompson, Thomas Hickman, W. B. Clark of Lincoln, Charles Adams, H. A. McCarty and Ralph Spafford went on a few days camping trip to Rocky Ford, a few miles north of Lilly on the Mackinaw. Mrs. Dr. Adams and Mrs. Rev. Miller chaperoned the party.—Bloomington Postgraph.

TRAIN ROBBERS AGAIN.

Bold Attempt Made to Loot the Lake Shore Train in Indiana.

[SPECIAL TO THE REPUBLICAN.] CHICAGO, Aug. 7. An unsuccessful attempt was made this morning to rob the fast Lake Shore train near Kendallville, Indiana, the scene of last winter's great robbery. The switch was thrown and many shots exchanged between bandits and the train crew.

GREAT RELAY STARTED.

Message for Governor Waite on its Way From Washington to Denver.

Promptly with the fall of the big black time ball on the state, war and navy building at noon yesterday at Washington, D. C., Consul George B. French and Ronsaville, of the District of Columbia division of the League of American Wheelmen, started from the White House on the great bicycle relay race from Washington to Denver, to be run in conjunction with the forthcoming L. A. W. meet at Denver. The two wheelmen bore a letter from Private Secretary Thurber to Governor Waite, which is to be passed from bicyclist to bicyclist, till it reaches its destination. Representative Springer, of Illinois, arranged the preliminaries for the wheelmen. The letter borne by the riders is as follows:

TO THE GOVERNOR OF COLORADO, DEAR SIR: At the request of the League of American Wheelmen the president directs me to herewith inclose the itinerary of a proposed journey from Washington, D. C., to Denver, Col., by bicycle. By the program fixed the messenger will have the executive mansion at 12 o'clock noon to-day, and it is expected that the inclosed will be delivered by relays to you at Denver on the 14th inst. at noon. Respectfully,

HENRY T. TATUM, Private Secretary.

The ride through this district will be made on the night of August 9th and 10th.

Here's Comfort.

Pedestrians passing along North Main street paused when opposite the two huge poles which support the lines running into the National Telephone office. The tall, stately pines, each of which might serve as a mast for some "Stately Admiral," had taken on a coat of purest white. High above the earth an artist with deft brush was laying on long bands of brilliant red. The effect was brilliant and startling. The towering pillars and mingling of bright colors informed the tourists that Walter Liston & Bro.'s barber shop had become a reality.

The interior when completed will be gorgeous. Five Royal Grand richly upholstered premium chairs will invite the wayfarers to luxurious ease, while skilled tonsorial artists add to his comfort and well being. The shop will be opened for business tomorrow. The interior when completed will be a study of beauty and convenience. Its equal will not be found in Central Illinois. Stop to-morrow and you will see that we have not told half that might be said.

New Telephone Project.

Rev. W. J. Kurtz of Vandavia is in the city to form the Illinois State Telephone company, the object of which is to put a people's plant in every county seat with city fire alarm system attached. Also a toll line connecting with every town in the county, with a 10 cent rate for messages. Peoria, Bloomington, Springfield, Decatur, Vandavia and Freeport are in the scheme. The city of Decatur is an easy mark for telephone projects, and another one or two with the usual complement of poles and wires will not make any difference, only the rates must come down and the service must be first-class.

Wanted—Horses.

We want some good driving horses in exchange for city property. Want two or three matched teams. Also want work horses of all sizes and ages. Will take same in trade for fine vacant lots or improved property. Apply to W. Z. Walmsley, real estate agent, over Cheap Charley's store. 23d&w2w

Quick Threshing.

On the Peter Bennett place, near Warrensburg, for Tom Luning, Monday, John and Job Davis, sons of O. L. Davis, did a quick job of oats threshing. Inside of 5 hours and 40 minutes they threshed 2228 bushels. This is said to beat the time record in that part of the country.

C. M. HUNTER and Ben Sheekley, of Decatur, went in the Century Club run at Chicago, and each made the 100 miles in 12 hours and 59 minutes. J. F. Gunther came in ahead in 6 hours and 50 minutes. There were 29 slower people than the Decatur young men and 101 faster.

SOLDIERS ENTER PROTEST.

They Refuse to Mess With Non-Union Pullman Workmen.

CHICAGO, August 6.—The sensation of to-day at Pullman was the refusal of Company M, of the First infantry to eat at the table with non-union workmen. At 1:20 o'clock Lieutenant Bowra marched Company M up to the big mess tent that stands on the lawn behind the Hotel Florence. There the company was left in command of Sergeant Cook. When the company came to break ranks at the tent entrance they were indignant to see two tables filled with nonunion employees of the Pullman Co. The workmen were a part of the new force hired to-day. They had been smuggled in with the soldier boys on the apology that they were afraid to go home for dinner. As the practice had been tried on in a smaller way last week, to the distaste of the company, the soldiers were prepared for decisive action. Wm. Byrnes, a member of the company, stepped into the entrance and said: "As volunteer soldiers, the men of Company M are here to see that the laws of Illinois are obeyed. I am not aware that it is soldierly or that discipline compels us to do what we feel is unpatriotic and not worthy of gentlemen. My scruples demand that I shall not associate with scabs. I refuse to sit with them at the same table."

There was an outburst of applause from Byrnes' comrades and Sergeant Cook marched the company across the street and broke ranks. "We will not enter that tent," a dozen privates said, "till we are assured that all non-union workmen are to be kept out." The workmen were finally marched out and the company marched in, receiving the assurance that they will hereafter have their mess tent to themselves.

ALL TROOPS ORDERED HOME

The Military Service of the Guards Will Come to a Close.

Gov. Altgeld has ordered the troops at Chicago relieved from duty this morning. The troops relieved are three companies of the First infantry, on duty at Pullman, and four companies of the Second infantry, on duty at the stock yards. This order ends the strike services of the Illinois National guard. It will be some time before it is known just how much the state of Illinois will pay out this year on account of the two great strikes—those of the miners and the A. R. U.—as the vouchers are coming in very slowly. It seems probable, however, that the payment of all the expenses incurred will exhaust the military appropriation.

THE RELAY RACE

From Washington to Denver likely to be the schedule.

WASHINGTON, Aug. 6.—The carrying the president's message to Gov. Waite in the great relay race from Washington to Denver will probably smash the schedule as time.

The Georgetown, Md., race, which carried the message to the town, Md., arrived here at 5:10 P. M. yesterday, and left at 5:10 P. M. for the next stage.

Standing on the schedule, not a moment's delay was accident and delay. The relay race to the next stage, the city of St. Louis, and the speed of the relay race is under fifteen miles an hour.

ARR. Md., Aug. 7.—The relay race reached this city at 1:30 P. M. yesterday, and the relay race is under fifteen miles an hour.

THE DAY IN CONGRESS

Senator Chandler on the Dominion Coal Company

AND HIS INVESTIGATION RESOLUTION.

The Bill for the Exclusion and Deportation of Anarchists Passed by the Senate, and a Conference Asked—In the House.

SENATE.

WASHINGTON, Aug. 6.—In the senate, during the morning hour, Senator Chandler's resolution to investigate the Dominion Coal Co. of Nova Scotia, and the substitute offered by Mr. Mills were the subjects of lively debate.

Mr. White was opposed both to the original resolution and to the substitute. He thought that the proposed investigation would be a needless waste of time and money. There was no charge contained in the resolution or substitute of any kind of fraud or corruption, and he thought that the resolution had been offered by the senator from New Hampshire for the purpose of getting an opportunity to make an amusing speech.

Mr. Chandler remarked that the senator from California had been in a chronic state of being amused all the session. That senator had been amused at the condition in which his party found itself on the tariff question; and now that there was a proposition to investigate the Dominion Coal Co. for the purpose of removing a scandal which had been circulating for the last six months, he found nothing in it except amusement. He thought that when an organization was formed with \$15,000,000 of watered stock, and when there was so much scandal in connection with it, the senate could afford to find out what is being done with these certificates of stock and whether the senator from New York (Mr. Hill), or the senator from California (Mr. White), might not be in danger of being approached. [Laughter.] Whether these senators should be allowed to rely on their own virtue alone to resist temptation, or whether the senate should not surround them with its protection by an investigation of the facts that their youthful innocence might be guarded. It seemed to him that a company was a monopoly with a capital of \$15,000,000, whether real or fictitious, when it was proposed, by reason of the removal of the duty on coal, to charge the people of the United States such a price for coal as would yield the company one dollar a ton profit, it was worth while for the senate to consider whether or not it would take away the market for coal from the states of Virginia, West Virginia and Pennsylvania.

"Now, Mr. President," Mr. Chandler continued in a sarcastic tone, "notwithstanding all the words of admiration and commendation which I have had occasion to speak of the distinguished president of the United States during this session, I differ with him now, and say that I do believe that in legislating at this time we should be afraid of indirectly and inordinately encouraging trusts. The senate has agreed with me on this subject, and early in this session it ordered an investigation of the Sugar trust. I am sensible about this Dominion Coal company which has its agents swarming in the capital city who are supposed to have stock certificates laid away in some safe in Nova Scotia, or some safe in Boston, or some safe in New York, ready to be produced when the occasion requires.

Mr. Gray replied to Mr. Chandler, and then, at the close of the morning hour, the resolution went over without action, and remains on the calendar. The house bill providing for the inspection of immigrants by United States consuls was then taken up by the substitute reported by Mr. Hill for the committee on immigration, for the exclusion and deportation of anarchists.

Mr. Hill addressed the senate in support of the substitute. His provisions applying to anarchists were new. There was no authority under the existing laws of the United States to prevent the landing of anarchists. The laws in relation to immigration seemed to be remarkably well framed, and would do much, if honestly and vigorously carried out, toward preventing undesirable immigration. If anarchists were not excluded, the United States would soon become the dumping ground of the anarchists of the world; and hence the necessity for the proposed legislation at this time. It was not proposed in the bill, he said, to make the belief in anarchy a crime, and, therefore, it was not necessary to define what an anarchist was. No provision was made for indictment or punishment, but provision was made that a person known as an anarchist should not land in this country; and, if he did land, then certain proceedings were to be taken by or through the secretary of the treasury, and that person should be deported.

Mr. Hill referred to a well-known English anarchist, Mowbray, who had recently come to this country and who had not only attempted to deliver lectures in the cities of New York and Brooklyn. There was no way, he said, of getting that man, although he had been prevented by the police from delivering his lectures. "The passage of the bill," he said in his judgment, "is the only thing to do, and it is better, under all the circumstances, to take the bill as the secretary of the treasury had presented it.

Mr. Hill favored both the house bill and the substitute. He suggested, however, that the substitute should be amended as a mere amendment or an addition to the house bill.

THE WAR IN COREA.

Li Hung Chang Continues to Direct War Preparations.

THE ABSENCE OF HIS YELLOW JACKET

The Subject of Much Remark—The Laying of Torpedoes Continues—An Unconfirmed Report of Another Naval Engagement, Etc.

LONDON, Aug. 7.—A dispatch to the Central News from Tien-Tsin says: Li Hung Chang continues to direct the war preparations of the Chinese. Yesterday he reviewed the newly-arrived troops. The absence of his yellow jacket was the subject of much remark. Li Hung Chang has sent a message to the Japanese minister expressing regret for the treatment to which the minister was subjected in Taku, and promising that the offending Chinese soldiers will be punished. The soldiers in question abused and derided the minister and threw mud and stones at him.

"A telephone line has been established between Taku and Tien-Tsin. The commander at Taku has prepared to block the Peking road on short notice. The laying of torpedoes continues. All competent men in the training schools have been called for service on various war ships."

The Shanghai correspondent of the Central News telegraphs as follows: "Yesterday's report that there had been an engagement of the Korean coast in which three Chinese war ships had been captured by the Japanese, is not confirmed here. The Chinese northern fleet remains at Weihai-Wei and no Chinese transports have recently ventured to sea."

"The Russian troops north of the Tumen river have been reinforced. Several Japanese transports escorted by war ships have been sighted in the Yellow Sea. It is presumed that they are bound for Chemulpo."

"Letters from Han-Kow, where there are only eighty Europeans, say that great anxiety prevails among the natives in the event of a disaster to the Chinese forces. All of the male citizens have been enrolled as soldiers. Uneasiness is felt in Chin Kian, Chuliu, Te Yang, and other places."

Appointed to Succeed Minister Tetsu. WASHINGTON, Aug. 7.—A telegram was received at the Japanese legation yesterday announcing the appointment of Mr. Shintaro Kuroki, chief of the diplomatic bureau of the department of foreign affairs, to be envoy extraordinary and minister plenipotentiary to the United States.

Mr. Kuroki was one of the students who were sent to this country by the government of Japan as soon as that government decided upon the policy of sending her young men abroad to pursue the course of studies at colleges and universities of Europe and America.

The announcement that Kintaro Kaneko would be appointed to succeed Minister Tetsu was premature.

ALABAMA STATE ELECTION.

A Light Vote With Increased Democratic Majority—Republican Claim the State Ticket.

BIRMINGHAM, Ala., Aug. 6.—Despite the fact that the campaign just closed was the hottest ever held in this state, the election to-day passed off rather quietly. The new State election law, a modified form of the Australian ballot system, enacted by the last legislature, was put in operation for the first time and worked smoothly. The ballot was a secret one. The balloting was slow, and for that reason the voting was generally lighter than in 1902.

The negroes, who vote en masse, figured, either did not vote at all, or voted solidly for Outies in Santa Alabama, while in north Alabama a majority of them were for Kolbs. The white republicans were for Kolbs almost to a man.

Several disturbances occurred in this country. At Bessemer the Kolbits captured the polls, and many democrats were prevented from voting by delay on the part of the managers. Two Kolbit managers were arrested for perjury and the box, which is for Kolbs, will probably be thrown out. At Brookside, this country, all the ballots were stolen last night, and new ones could not be had until this afternoon. A majority of 60 was given to Kolb there.

At East Lake, a Kolbit leader drew a pistol on a democrat and bloodshed was narrowly averted. In this country (Jefferson) the democrats lost heavily on account of labor troubles, but the county is thought to be safely democratic by 1,500 majority, that being about the majority in Birmingham, while the country beats are a stand-off.

Incomplete returns from various beats of the state indicate that in south and middle Alabama the democrats have made substantial gains in every county except, possibly, Mobile, where the vote was light. The city of Mobile went only 700 democratic majority.

Montgomery, Selma, Eufaula and Birmingham, in fact all large towns, gave good democratic majorities. The country districts were Kolb's strongholds, and in north Alabama, except in the counties of Limestone, Lamar, Tuscaloosa and Etowah, he got the same vote as in 1902, but in Jefferson his vote shows a good increase.

To sum up, the relative result in North Alabama is about the same, on the whole, as it was two years ago, while the democrats show gains in all other sections of the state. This gives Outies a majority of from 17,000 to 20,000.

The legislature is close and doubtful. At Mobile the headquarters here, Kolbs claims the state by about 25,000, but reports quoted so far hardly warrant the claim.

Tans!

This is the season when we want to sell them and it is the season when you want to buy them. There

ought not to be the slightest difficulty in our agreeing if you will only come to our store and bring your feet with you. We have a great stock of Men's Tan Shoes which we want to turn into money during this hot weather, and we are not going to ask you a regular price for them, either. The truth is that we want to sell them so bad that we don't mind about the profit. We will sell you any pair of our Men's Tan Shoes that were bought to sell at \$4.00, at only \$2.98. Our fine \$6.00 Hanan & Sons' cloth top, wing tip, button tans—we will sell you as many pairs of them as you want at \$4 per pair. These are samples only of the prices we make. The truth is that in the tan shoes for ladies which we have on hand there are just as great bargains as in those for men's wear. We must clean up this stock and we invite your co-operation. If you examine these goods we know you will buy.

JURORS from the sermons preached in Pullman since the strike is evident the strike has been hard on the regular

contributions. There is only one of the lot that took the proper stand, and he was a Swede by the name of Lindeblad. He talked sense to the men all the time, advising them to cease following the advice of demagogues and agitators. Through his instrumentality hundreds of misguided workmen have gone to work, while those who have failed to accept his counsel will be permanently out of work.

Arizona Ore Specimens

Attorney A. H. Mills to day received a box of beautiful specimens of gold and silver set from Curtis, Arizona, by his nephew, Charles E. Mills, who is the owner of valuable mining property in Arizona. The specimens were taken from a great fissure in the mountain side. They embrace a great variety of beautiful colors and comprise nearly all the full range of minerals. Mr. Mills will add the welcome consignment to his specimens at home and will take pleasure in showing them to friends. Charley seems to be very popular in the west. Not long since his people wanted to send him to the Arizona legislature to represent their interests. First the prohibitionists tendered him the nomination, then the Democrats and Republicans in the order named. But to each party Charley turned a deaf ear, stating that his business interests were such that no temptation could induce him to go into politics. He may be governor some day.

Such is Life.

This is a season of the year when sup-possibly sane young men and young women, who have good beds in screened protected houses at home, and three good meals a day without the trouble of preparing them, go out into the woods and sleep on hard, knobby beds, where the entomology of this country walks up and down their anatomy, and where they cook small, unsatisfactory catfish until it tastes principally of smoke, and with out such luxuries as hair brushes and baths, and imagine they are having a good time, whereas if they had to do these things by the grim compulsion of poverty there would be a big wail of protest. Such is life.

Going Away.

Rev. George A. Wilkins, who has been the very acceptable acting rector for St. John's Episcopal church for several months, will depart this week for his home in Vermont. Rev. Mr. Wilkins, who is a scholarly and polished gentleman, delivered his farewell sermon Sunday. He made hosts of friends in Decatur, and in whatever field his lot may be cast, all will wish him well.

WILL PLAY AGAIN.

The Iroquois Win by One Point—Stopped by the Umpire.

Another game was played at the Athletic Association Park yesterday afternoon. With each game the attendance and interest increases and the success of the park seems very flattering. Over 200 were out yesterday and the family carriages were numerous. Game was called at 4:30 o'clock and was declared off at 7:15 by the umpire on account of darkness at the end of the eighth inning when the score was 21 to 20 in favor of the Iroquois. There was some little dissatisfaction among the members of both clubs throughout the game, but when it was decided to play the game over on next Monday afternoon all seemed satisfied and left for their homes. The errors were many and the earned runs few, only one out of 41 runs being scored as earned. The grand stand play of the game was made by Oscar Dawson on second base, very much to his surprise. With his left hand he pulled down a hot liner, two feet over his head for which he was greatly applauded. Other good plays were made in the field and some good base work was done. In the fourth inning Wilson, pitcher for the Iroquois sustained a bruised finger, and left the diamond to have it dressed, Gates going in the box in his stead. In the next inning the umpire refused to let Wilson back in the box, this action being in accordance with a '91 rule. Eight innings were played with the result given below:

BASE HITS.

Truax, of the error list, led the teams with seven.

A game is in progress this afternoon between the Y. M. C. A. and J. D. Moore's nine. Game was called at 3:30 o'clock.

Still in Line.

A man has been going the rounds to day that L. F. Abrams intended to sell his photograph gallery, over Peddick & Burrows. A reporter called on Mr. Abrams to day and that gentleman stated that he had not for an instant entertained any thought of selling out. That his business was daily increasing and he had now work ahead for three or more weeks. He stated further that we should lay particular stress on the fact that he was still the foremost photographer in the city and is prepared to execute all orders for any style picture.
